ROFFE SWAYNE LAUNCH BUSINESS AWARDS

Godalming based Chartered Accountants Roffe Swayne has launched their Enterprise Awards for growth, development and innovation in business.

Partner Jeremy Gardner said: 'We are looking for entrants who are already running a business and who have some idea of what their next step to grow their business is, but perhaps need a bit of encouragement.

It may be to launch an existing product or service into a new market, or to increase their presence in their existing market, or it may be to acquire another business as a means of growth. We want to hear about this, by the businesses actually putting plans down on paper. The submissions will then be considered by our judging panel, which is made up of two successful local entrepreneurs, one solicitor, one banker and two members of the Business Development team at Roffe Swayne.'

The prize for the winning entrant is £10,000 of professional business advice services from Roffe Swayne – almost guaranteed to make a success of the winner's expansion idea. An additional 'carrot' to enter is a two hour free business consultancy session for all finalists, together with associated PR.
